Comparative Effectiveness of Psychotherapies in Adults with Posttraumatic Stress Disorder: A Network Meta-Analysis of Randomised Controlled Trials

Dear Prof. Chou,

Thank you for submitting your manuscript. However, your manuscript needs your attention before it can be further processed.

Original articles should have a structured abstract – sorry if I missed this last time. Both the abstract in the text box and that in the main document should be identical.

Many of the references still require your attention.

Please make sure you comply with the instructions to contributors for **Psychological Medicine**, especially:

* references must use APA reference style and include article titles and full journal names (not abbreviations)
