

THE 4TH ASIAN CONGRESS IN NURSING EDUCATION
"Innovations in Nursing Education, Practice and Leadership"

Vietnam, December 17th - 18th, 2021

ABSTRACT BOOK 02
Concurrent Session & Poster Session

PROGRAM OVERVIEW

THE 4TH ASIAN CONGRESS IN NURSING EDUCATION

Vietnam, December 17th - 18th, 2021, via Zoom

Time (GMT+7)	Program
FRIDAY, DECEMBER 17, 2021	
07:00-08:00	Registration and Zoom connection
08:00-08:30	Opening Ceremony
PANEL SESSION 1: NURSING LEADERSHIP AND MANAGEMENT	
<u>Chairperson:</u> Prof. Patsy Yates, Queensland University of Technology, Australia	
<u>Moderator:</u> Dr. Tran Quang Huy, Vietnam Nurse Association, Vietnam	
08:30-08:50	Challenges and Strategies for the Future of Nursing <i>Prof. Dr. Lian-Hua Huang, 3rd Vice President of International Council of Nurses, Controller of Taiwan Nurses Association, Taiwan</i>
08:50-09:10	Roles of Vietnam Nurses Association in Policy Advocating: Past Success and Current Challenges <i>Mr. Pham Duc Muc, President of Vietnam Nurses Association, Vietnam</i> <i>Dr. Tran Quang Huy, Vice President of Vietnam Nurses Association, Vietnam</i>
09:10-09:30	Creating a Nursing Workforce Prepared to Lead <i>Prof. Patsy Yates</i> <i>School of Nursing, Queensland University of Technology, Australia</i>
09:30-09:50	The Role of University Leadership in Advancing and Sustaining Innovations in Nursing Education and Practice <i>Prof. Wacker Robbyn, St. Cloud State University, United States</i>
10:05-10:15	Break - Promotion video from BD
PANEL SESSION 2: QUALITY OF NURSING EDUCATION	
<u>Chairperson:</u> Assoc. Prof. Dr. Somsiri Rungamornrat, Mahidol University, Thailand	
<u>Moderator:</u> Dr. Nguyen Hoang Long, VinUniversity, Vietnam	
10:15-10:35	Accreditation: Enhancing Quality of Nursing Education <i>Professor Emeritus Lan Gien</i> <i>Faculty of Nursing, Memorial University of Newfoundland, Canada</i>
10:35-10:55	Bridging the Nursing Education and Practice <i>Prof. Ching-Min Chen, President of Taiwan Nurses Association, Taiwan</i>
10:55-11:15	Teaching Strategies in Nursing Theory <i>Prof. Yu-Yun Hsu, President of Taiwan Association of Nursing Education, Taiwan</i>
11:15-11:35	Total Quality Management in Nursing Education at Faculty of Nursing, Mahidol University <i>Assoc. Prof. Dr. Somsiri Rungamornrat</i> <i>Associate Dean For Quality Development, Mahidol University, Thailand</i>

CONCURRENT SESSION 1			
13:00-15:00	CS1-1: Nursing Education 1 <u>Chairpersons:</u> 1. Dr. Josefina A Tuazon, University of the Philippines Manila, Philippines 2. Dr. Nguyen Thi Hoa Huyen, VinUniversity, Vietnam	CS1-2: Nursing Management for NCDs <u>Chairpersons:</u> 1. Assoc. Prof. Sergül Duygulu, Hacettepe University, Turkey 2. Dr. Nguyen Thi Nguyet, Vietnam National University, Vietnam	CS1-3: Nursing Leadership and Management <u>Chairpersons:</u> 1. Prof. Patsy Yates, Queensland University of Technology, Australia 2. Dr. Tran Quang Huy, Vietnam Nurse Association, Vietnam
15:00-15:15 Break - Co-hosts Video clip Presentation			
CONCURRENT SESSION 2			
15:15-17:00	CS2-1: Nursing Education 2 <u>Chairpersons:</u> 1. Prof. Mei-Chih Huang, President, National Tainan Junior College of Nursing, Taiwan 2. Dr. Nguyen Thi Thanh Huong, VinUniversity, Vietnam	CS2-2: Pediatric Nursing <u>Chairpersons:</u> 1. Assist. Prof. Dr. Sirada Kesornsri, Mahidol University, Thailand 2. Dr. Tran Thuy Khanh Linh, University of Medicine and Pharmacy at Ho Chi Minh City, Vietnam	CS2-3: Nursing Care for the Elderly and Palliative Care <u>Chairpersons:</u> 1. Prof. Wen-Yu Hu, School of Nursing, College of Medicine, National Taiwan University, Taiwan 2. Dr. Huynh Thuy Phuong Hong, University of Medicine and Pharmacy at Ho Chi Minh City, Vietnam
SATURDAY, 18 DECEMBER 2021			
07:00-07:30	Zoom connection		
CONCURRENT SESSION 3			
07:30-09:15	CS3-1: Women Health Nursing <u>Chairpersons:</u> 1. Prof. Yu-Yun Hsu, Taiwan Association of Nursing Education, Taiwan 2. Dr. Nguyen Thi Nhan, University of Medicine and Pharmacy at Ho Chi Minh, Vietnam	CS3-2: Evidence-based Nursing Practice <u>Chairpersons:</u> 1. Assoc. Prof. Dr. Sopen Chunuan, Prince of Songkla University, Thailand 2. Dr. Ha Thi Nhu Xuan, University of Medicine and Pharmacy at Ho Chi Minh City, Vietnam	CS3-3: Nursing Care for Individuals during COVID-19 and other Health Issues <u>Chairpersons:</u> 1. Ms. Dwi Nurviyandari, RN, MN, Universitas Indonesia, Indonesia 2. Dr. Do Thi Ha, Pham Ngoc Thach University of Medicine, Vietnam
09:15-09:45 Break - Poster Presentation			

CONCURRENT AND POSTER SESSION

THE 4TH ASIAN CONGRESS IN NURSING EDUCATION

Vietnam, December 17th - 18th, 2021, via Zoom

Code	Time (GMT+7)	Program	Page
CONCURRENT SESSION 1			
CS1-1: NURSING EDUCATION 1			
Chairpersons: Dr. Josefina A Tuazon, University of the Philippines Manila, Philippines Dr. Nguyen Thi Hoa Huyen, VinUniversity, Vietnam			
CS1-1-1	13:00 - 13:15	Nursing Education Curricula: A Bridge Program in the United State Ann Cowels (United States)	01
CS1-1-2	13:15 - 13:30	Facilitators and Barriers to the Implementation of the Competency-Based Nursing Curriculum in Vietnam: A Qualitative Descriptive Study Nguyen Thi Hong Anh (Vietnam)	02
CS1-1-3	13:30 - 13:45	A Concept Analysis of Gamification in Education Anastasia Anna (Taiwan)	03
CS1-1-4	13:45 - 14:00	Effective Advanced Training Program Knowledge and Skill Communication Verbal of Nursing with Newborn Mai Thi Hien (Vietnam)	04
CS1-1-5	14:00 - 14:15	Health Professional Education: The Use of Standardized Patients in Communication Skill Training Bui Thi Hien (Vietnam)	05
CS1-1-6	14:15 - 14:30	Assessing Feasibility and Reliability of the Vietnamese Dundee Ready Education Environment Measure in Nursing Education Hoang Thi Hue (Vietnam)	06
CS1-1-7	14: 30 – 14:45	Effects of Project-Based Learning Integrated with Mind Maps on Practicing Nursing Students' Learning Achievement in a Course on Pressure Injuries Chia-Yi Yen (Taiwan)	07
CS1-2: NURSING MANAGEMENT FOR NCDs			
Chairpersons: Assoc. Prof. Sergül Duygulu, Hacettepe University, Turkey Dr. Nguyen Thi Nguyet, Vietnam National University, Vietnam			
CS1-2-1	13:00 - 13:15	Feasibility of Using the OMAHA System for Problem and Symptoms Identification among Patients with Chronic Kidney Disease Dhea Natasha (Taiwan)	08
CS1-2-2	13:15 - 13:30	Exploring Health Literacy among Patients undergoing Hemodialysis in Vietnam Dam Thi Thuy (Vietnam)	09
CS1-2-3	13:30 - 13:45	Caregiving Triad in Haemodialysis: The Roles of Patients, Family Caregivers and Healthcare Professionals Hoang Lan Van (Vietnam)	10

CS1-2-1

Feasibility of Using the OMAHA System for Problem and Symptoms Identification among Patients with Chronic Kidney Disease

Dhea Natashia, Department of Nursing, College of Medicine, National Cheng Kung University, Tainan, Taiwan

Miaofen Yen, National Cheng Kung University, Tainan, Taiwan

Muhammad Hadi, Universitas Muhammadiyah, Jakarta, Indonesia

Background:

Patients living with chronic kidney disease (CKD) face significant physical limitations and psychological challenges due to both disease and treatment. Understanding of symptom burden can be used to determine interventions designed to improve the quality of care during the trajectories of disease. However, symptoms of chronic kidney disease are often under-recognized due to the inadequate and inconsistent symptoms dimensions of available assessment tools. In the informatics era, there is growing evidence to use the OMAHA system as a rigorous and standardized tool that enables health care providers to comprehensively assess health care problem using multidisciplinary approach

Purpose:

The purpose of this study is to evaluate the feasibility of using the OMAHA system for identifying and classifying problems of patients with chronic kidney disease

Design:

A feasibility study

Method:

This study will conduct in two stages. The initial stage is the development of standardized CKD assessment tools based on OMAHA system. The literature review will be conducted to identify the existing assessment tools. Face validity will be conduct to analysis the available assessment tools for the identification and classification of health care problems. Problem Classification part of OMAHA system will be used as the referred form to produce the first draft of standardized CKD assessment tools. Then, panel expert will be conducted to refine the first draft followed by the redevising items, mapping, and validity testing

Expected

Results:

We expect to develop patient assessment tools that will be able to identify the problems of patients with CKD in all stages of the disease trajectory

Keywords:

Chronic Kidney Disease, OMAHA System, Symptom, Assessment
