**IMPLEMENTATION OF CYBER PUBLIC RELATIONS IN DEVELOPING KNOWLEDGE OF LEARNING PROGRAM FOR STUDENTS OF THE INSTITUTION OF AL-QURAN LANGUAGE AND SCIENCE (LBIQ) DKI JAKARTA PROVINCE**

*xiii + 80 pages + attachments*

## **ABSTRACT**

*The development of knowledge of learning programs by the Institute for Language and Al-Quran Science (LBIQ) DKI Jakarta Province needs to implement Cyber Public Relations practices in the community, especially students. It is important for LBIQ to implement learning programs, one of which is through Cyber Public Relations. This study aims to determine the implementation of Cyber Public relations at the DKI Jakarta Province Al-Quran Language and Science institution in developing knowledge of student learning programs, through basic elements including (1) Transparency, (2) Internet Porosity, (3) The Internet as an agent, (4) Richness in content and reach. The theory used in this research is the basic elements of Cyber Public Relations adopting Philip and Young, and implementation based on the theory by Van Horn and Van Meter in the form of variables (1) Standards and policy objectives or policy measures and objectives, (2) Resources , (3) the characteristics of the related organization and implementation activities, (5) the attitude of the implementers, (6) the social, economic and political environment. The method used in this research is a qualitative descriptive method. The results of the research are known: (1) Transparency through the website <https://www.lbiqdki.id/> or through social media owned and used by institutions seeking to provide information, (2) Organizations control the information that will be disseminated to the public, (3 ) The process of transforming an online platform that creates the latest concept in the form of infographics, (4) Delivering information that is rich in information from the internet that is easily accessible and accessible.*

*information from the internet that is easily accessible and accessible.*
