PELAKSANAAN PENDAMPINGAN BIOPSIKOSOSIAL SPIRITUAL
TERHADAP PEREMPUAN KORBAN TINDAK KEKERASAN DALAM
RUMAH TANGGA DI PANTI SOSIAL PERLINDUNGAN BHAKTI KASIH

XVIII + 166 Halaman

ABSTRAK

Penelitian ini bertujuan untuk mendeskripsikan : 1) Mekanisme pelaksanaan pendampingan Biopsikososial Spiritual terhadap perempuan korban tindak KDRT; 2) Faktor penghambat dan faktor pendukung dalam pelaksanaan pendampingan Biopsikososial Spiritual terhadap perempuan korban tindak KDRT, dan; 3) Hasil pelaksanaan pendampingan Biopsikososial Spiritual terhadap perempuan korban tindak KDRT, di Panti Sosial Perlindungan Bhakti Kasih.

Penelitian ini merupakan penelitian deskriptif dengan pendekatan kualitatif. Pemilihan informan dalam penelitian ini ditentukan secara *purposive sampling*, yang dimana diperuntukan khusus bagi informan yang terlibat dan berperan langsung dalam pelaksanaan pendampingan. Teknik pengumpulan data yakni menggunakan metode wawancara, observasi, dan dokumentasi. Data yang diperoleh dalam penelitian ini kemudian dianalisis dengan menggunakan software Atlas.ti yaitu perangkat lunak yang dapat membantu dalam mengorganisasi, memberikan kode, dan menganalisis data penelitian secara efisien dan terstruktur.

Hasil penelitian ini diketahui bahwa : 1) Mekanisme pelaksanaan pendampingan Biopsikososial Spiritual meliputi berbagai macam kegiatan dan tujuan; 2) Terdapat faktor penghambat pelaksanaan pendampingan, diantaranya yaitu keadaan lokasi panti yang tidak luas, peralatan penunjang kegiatan yang tidak memadai, keterbatasan WBS dan adanya WBS yang kurang kooperatif saat kegiatan, serta tidak adanya instruktur pelaksana kegiatan saat pandemi; 3) Faktor pendukung pelaksanaan pendampingan yakni adanya pemberian amunisi *snack* atau *reward snack* oleh para pendamping ataupun instruktur kegiatan kepada WBS, adanya *ice breaking* yang diberikan instruktur kepada WBS, adanya akses terbuka serta keterbukaan ruang dan waktu oleh pihak panti kepada instruktur kegiatan; 4) Hasil pelaksanaan pendampingan meliputi : a) Terpenuhinya kebutuhan WBS; b) Adanya perbedaan yang signifikan dari segi emosi WBS sebelum dan sesudah mendapat pendampingan, dan; c) Adanya kegiatan advokasi WBS kepada pihak keluarga, agar di terima dan kembali menjadi keluarga yang rukun dan harmonis.

IMPLEMENTATION OF SPIRITUAL BIOPSYCOSOCIAL ASSISTANCE
AGAINST WOMEN VICTIMS OF DOMESTIC VIOLENCE
IN SOCIAL CARE FOR THE PROTECTION OF BHAKTI KASIH

XVIII + 166 Pages

ABSTRACT

This study aims to describe: 1) The mechanism for implementing Spiritual Biopsychosocial assistance for women victims of domestic violence; 2) Inhibiting factors and supporting factors in the implementation of Spiritual Biopsychosocial assistance for women victims of domestic violence; 3) The results of implementation of Spiritual Biopsychosocial assistance for women victims of domestic violence, in Social Care for the Protection of Bhakti Kasih.

This research is a descriptive study with a qualitative approach. The selection of informants in this study was determined by purposive sampling, which is specifically intended for informants involved and plays a direct role in the implementation of assistance. Data collection techniques use interview, observation, and documentation methods. The data obtained in this study were then analyzed using Atlas.ti software, which is software that can assist in organizing, coding, and analyzing research data in an efficient and structured manner.

The results of this study indicate that: 1) The mechanism for implementing Spiritual Biopsychosocial assistance includes various activities and objectives; 2) The are factors inhibiting the implementation of assistance, among them is the state of the location of the orphanage that is not wide, inadequate activity support equipment, limitations of socially built citizens and the presense of socially built citizens who are less cooperative during activities, and there is no instructor implementing activities during the pandemic; 3) Factors supporting the implementation of assistance are the provision of snack ammunition or snack rewards by escorts or activity instructors to socially assisted citizens, there is ice breaking given by istructors to socially fostered citizens, there is open access and openness of space and time by the orphanage to the activity instructor; 4) The results of the implementation of assistance include : a) The fulfillment of the needs of socially built citizens; b) There are significant differences in terms of emotions of socially fostered citizens before and after receiving assistance, and; c) The existence of advocacy activities for socially fostered citizens to the family, in order to be accepted and return to be a family get along well and harmonious family.
